TRY THE

Star Bone Phosphate.

TO all agriculturists, therefore, who are in search of an active and permanent manure, and who say have the claims of this article presented to their notice for the first time, the manufacturers would suggest, that the

STAR BONE PHOSPHATE

is worthy of their experimental trial, at last; past experience warranting the fullest confidence, that after a trial they will find their testimony to that of hundreds of farmers who never regard it as the cheapest and best manure in the market.

A Word to the Wise!

HIGHLY IMPORTANT TO FARMERS

Renner's Chemical Fertilizer!

THE importance of a quick, active and durable Fertilizer, adapted to the soil of our county, is acknowledged by all Farmers. Having satisfied myself, after long study and careful experiment, that R. C. RENNER'S

Chemical Fertilizer

surpasses all others in adaptedness to all kinds of soil, I have purchased the right for Adams county, and will be prepared for the coming season. Call and examine for it promptly and on reasonable terms. It is no humbug, but

HAS BEEN SUCCESSFULLY TRIED

by a number of our Farmers, and is admitted by all who have it to be the best in the market, and the cheapest. I am prepared to furnish the Fertilizer in any quantity, and will deliver

In any town or village in the County,

when ordered in not less quantity than a TON. I manufacture it for sale at $60 per ton without bags, or $65 in bags. This Fertilizer is composed of the best Fertilizers, chemicals that can be had. I use no oil of vitriol; it does not contain ammonia, therefore I do not use it. Neither do I use lime nor ashes.

THE CHEMICAL FERTILIZER

is to introduce a fertilizer that will insure a series of crops—not only for one. It contains sufficient animal matter to mature the grain and make it ripen early, while the ammonia aids the growth. I expect to manufacture large supply in the winter for the spring crops, and therefore invite farmers and the public generally to give it a trial on all kinds of Grains and Vegetables.

CAUTION.—I hereby give notice that Farm Rights hereafter sold, unless signed by me, are infringements on my Right, and will be prosecuted and dealt with according to law, from which there is no appeal.

TAKE THE PAPERS.

BY N. P. WILLIS.

Why don't you take the papers?
They're the life of my delight!
Except about election time,
And then I read for spite.

Subscribe! you cannot lose a cent,
Why should you be afraid?
For cash thus paid is money lent
At interest four-fold paid.

Go then, and take the papers,
And pay to-day, nor pray delay,
And on my word for it is inferred,
You'll live until you're gray.

An old neighborn man of mine
While dying with a cough,
Desired to hear the latest news
While he was going off.

I took the paper and I read
Of some new pill—in full,
He bought a box—and—is dead?
No—hearty as a horse.

I knew two men, as men are alike
As e'e you saw two stumps,
And no phrenologist could find
A difference in their bumps.

One takes the papers, and his life
Is happier than a king's,
His children all can read and write,
And talk of men and things.

The other took no paper, and
While strolling in the wood
A tree fell down and broke his crown,
And killed him—"very good."

Had he been reading of the news,
At home like neighbor Jim,
I'll bet a cent that accident
Would not have happened him.

Why don't you take the papers?
Nor from the printer sneak;
Because you borrow from his boy
A paper every week.

For he who takes the papers,
And pays his bills when due,
Can live at peace with God and man,
And with the printers too.

THE ŒCUMENICAL COUNCIL.

ITS GENERAL CHARACTER.

The Council at Rome occupies a very conspicuous place among the religious assemblies of modern times. In the Roman Catholic Church no such assembly has been held since the Council of Trent, which closed more than three hundred years ago. And it is noteworthy that during these three hundred years no other form of religious belief has been able to convoke a Council which to an equal extent embraced representatives from all parts of the habitable globe. The Eastern Church is confined to a few, though vast, countries in Eastern Europe, Northern and Western Asia, and Northern and Eastern Africa, and again broken up into a number of parties, which have no bond of union, and have never even attempted to assemble a General Council. Protestantism now bids fair to become as widely extended as Roman Catholicism, rooting itself in every country of the world; but it is divided into hundreds of organizations, which thus far have in their history no meeting, in which all these organizations were officially represented, though of late, the initial step toward the future Œcumenical Councils of Protestant Christendom has been taken by the General Conferences of the Evangelical Alliance. Outside of the Christian world no such meetings are at present thought of. There was a time when Buddhism had its Œcumenical Councils, attended by the heads of religion from various countries; but this time has long since been past. International Congresses for humanitarian and social purposes have sprung into existence during the past few years, and bid fair to have a grand future; but thus far, in point of universality, the Œcumenical Council of Rome which opens to-day is the grandest International Congress of the present century, and, in general, of modern times, and it therefore justly commands the intense interest of all who are not indifferent to the religious and moral ideas which at the present time sway so large a portion of the human race.

THE CATHOLIC HIERARCHY—HOW IT IS COMPOSED.

The Catholic hierarchy is the only monarchy among the great religious organizations of the world. Neither the Greek Church, nor a single one of the Protestant bodies, nor Judaism, nor Mohammedanism, nor any other non-Christian form of belief has a monarchial head. The present Pope, Pius IX, was born on May 13, 1792, and is therefore now in his 78th year. In the list of bishops of Rome, as it is given in the official Papal Almanac, he is accounted the 257th. Like all of his predecessors during the last 300 years, he is an Italian by birth; the last non-Italian Pope having been Adrian II., who was a Hollander, and died in 1523. Of all the bishops of Rome only 49 were non-Italians, and of these 18 were Frenchmen, 7 Germans, and 3 Spaniards.—The Pontificate of Pius IX. is one of the longest on record. Having been elected on the 16th of June, 1846, he has occupied the Papal chair for 23 years and six months.—Only two have exceeded the length of the pontificate of the present Pope, namely: Pius VI., who died in 1799, after a pontificate of 24 years and eight months, and in the earlier history of the Church, Silvester I., whose pontificate extended to 23 years and 10 months. The pontificate of Pius IX. has been agitated by great storms which more than once have threatened to sweep away the whole of the Temporal Power,—At the same time, however, the borders of the Church have been greatly enlarged, and its organization in many countries consolidated. No fewer than 116 new dioceses, or about one-tenth of the total number of Catholic dioceses, have been established by the present Pope. Pius IX. is earnestly devoted to the ultra-Papal theories which have long been traditional in Rome, though they are regarded with regret by many within the Church, but personally he is highly esteemed, not only by all parties within the Church, but by all who have come into personal contact with him.

THE COLLEGE OF CARDINALS.

The Pope is assisted in the government of the Church by the Cardinals. Though next to the Pope as his advisors, they are not next to him in point of jurisdiction, and, therefore, in the scale of the hierarchy; for a Cardinal who is not at the same time a Bishop, ranks inferior to Archbishops and Bishops. The College of Cardinals is divided into three classes—Cardinal Bishops, Cardinal-Priests, and Cardinal-Deacons.—The first of these classes comprises the bishops of six Episcopal Sees near Rome, who, however, reside in the City of Rome. The Cardinal-Deacons are generally officers of administration, and, in many cases, have not taken priestly, though they have received the minor orders. The great majority of the College, comprising in particular all the foreign Cardinals, belong to the order of Cardinal-Priests. The full number of the Holy College is 70; but the number is rarely full. According to the Papal Almanac for 1869, there were in January, 1869, 6 Cardinal-Bishops, 43 Cardinal-Priests, and 8 Cardinal-Deacons; together, 57; leaving 13 hats vacant, though two new Cardinals had been reserved *in petto*, but not yet announced. Two Cardinals having died during the year, and none appointed, the number at present is only 55. As usual, the majority of them are Italians; of non Italians there were, in December, 1869, 7 French, 4 Spaniards, 4 Germans, and 1 Irish. The American countries, though now constituting a very important portion of the territory of the Church, are not represented in the Holy College.

Of most of the Italian Cardinals little is known outside of Italy. The only one among them who has a world-wide reputation is Cardinal Antonelli, the President of the Papal Ministry, who has had charge of the temporal interests of the Holy See during the greater part of the Pontificate of Pius. The foreign Cardinals are somewhat better known, as they are taken among the prominent dignitaries of the several countries, or among the sons of the first princely families of Europe. Thus the Holy College numbers at present among its members Lucien Bonaparte, a cousin of the French Emperor; Prince Schwarzenberg, Archbishop of Prague; Prince Hohenlohe, a brother of the Prince Minister of Bavaria; Count Reisach, who is now one of the six Cardinal Bishops. Of the other Cardinals, Archbishop Bonald of Lyons, Archbishop Rauscher of Vienna, Archbishop Cullen of Dublin, have occupied a prominent position in the recent history of the Church, and are widely known.

ECCLESIASTICAL PROVINCES—PATRIARCHS, ARCHBISHOPS AND BISHOPS.

The Catholic Church is divided into dioceses. The heads of them are called either Patriarchs, or Archbishops, or Bishops.—In the ancient Church, a Patriarch was the head of one of the large divisions into which the Church was divided. These were five—Rome, Constantinople, Alexandria, Antioch and Jerusalem. Four of these Patriarchates are, at present, in non-communion with the Roman Catholic Church, and in the case of the Bishop of Rome, the name Pope has dislodged the name Patriarch. The old meaning of the word has thus disappeared in the Roman Catholic Church; but the title has been retained for the Bishops whom the Catholic Church has appointed for the ancient Sees, and has gradually been conferred upon a few other prominent sees; so that at present twelve Bishops of the Catholic Church are called Patriarchs.

The number of Archbishoprics, in 1869, is 139. An Archbishop, in most cases, is the head of an ecclesiastical province which, besides him, embraces a number of Bishops. The Bishoprics, in 1869 numbered 723. Of these, six were the "suburban sees" occupied by the Cardinal-Bishops; 84 others were immediately subject to the Pope; the remainder were members of an ecclesiastical province and suffragans of an Archbishop. The total number of Patriarchates, Archbishoprics, and Bishoprics amounted to 874.

In addition to the Patriarchs, Archbishops, and Bishops, there is a considerable number of prelates who are styled Bishops *in partibus infidelium*, that is, "in the lands of the infidels." They are either the heads of districts in Pagan or Protestant countries, where the Popes do not deem it prudent to erect into regular dioceses; or the assistants of some Bishops who have very large dioceses, or who are in infirm health, or, in some instances, only high dignitaries, on whom the Episcopal dignity is conferred from personal grounds. Together there were of this class, in January, 1869, 284. More than a hundred dioceses, how ever, were vacant, and the actual number of prelates with the title of Bishops, constituting the Catholic Hierarchy, at the beginning of the present year, was 981.

THE CATHOLIC HIERARCHY IN AMERICA.

The total number of American Archbishoprics at the beginning of the present year was 25; of bishoprics, 125. There were besides 13 vicars apostolic, and 2 prefects apostolic, all of whom were bishops *in partibus*. Thus the total number of American prelates, having received Episcopal consecration, should be 167; as there are, however, a few vacancies, their number may be said to be about 160. They are an entirely new element in the Œcumenical Council; for, while at Trent, the New World, only recently discovered, was not yet represented by a single prelate, now the American bishops, if all present, would constitute almost one-fifth of the hierarchy assembled at the Council.

In our own country the hierarchy is at present constituted as follows:

*Archbishoprics*—Baltimore. *Suffragan Bishoprics*—Charleston, Erie, Harrisburg, Philadelphia, Pittsburgh, Richmond, Savannah, Scranton, Wheeling, Wilmington.

*Vicariates Apostolic*—East Florida, North Carolina.

# The Star & Sentinel.

Friday, Dec. 17, 1869.

**Advertisers and others interested will bear in mind that the regular circulation of the "STAR AND SENTINEL" is much larger than that of any other paper published in the County, being read weekly by not less than 11,000 persons.**

## RARE INDUCEMENTS

**The New York Independent and Star & Sentinel at unusually low rates.**

We have made special arrangements with the publishers by which we are enabled to furnish the *New York Independent* and the STAR & SENTINEL to new subscribers at the low rate of $4, together with a copy of Ritchie's splendid Steel Engravings of GRANT and COLFAX as premiums. The INDEPENDENT is one of the best religious papers in the country, and its regular subscription $2.50.. The Engravings of Grant and Colfax alone sell for $4.—Specimen copies can be seen at this office. Here is a chance to get the *Independent* and the *Star & Sentinel* FOR NOTHING. Send us $4, and both papers, with the two Engravings, will be sent to any address.

## SETTLING UP!

We have on our books a large amount of unpaid Subscriptions, Advertising and Jobbing, and have commenced making out accounts, which will be forwarded to those indebted as rapidly as th y can be prepared. The Cash system has been introduced in every thing requisite to a newspaper office. We have to pay Cash for every pound of paper, every pound of ink and type, and all the labor employed in the office. To meet our engagements, we are compelled to reduce our business to the Cash basis, as far as practicable. We have been sending the "STAR AND SENTINEL" to some subscribers for nearly three years, without realizing anything on their subscriptions—to others for a less period. With the heavy outlay incident to the management of the office, it is absolutely necessary that we realize promptly the amounts due us. We hope that all our friends will see the propriety and necessity of promptly meeting these bills as they are sent out.

We propose at an early date to revise our mailing list, and to STRIKE OFF all who manifest no disposition to pay the printer. With this fair notice, delinquent subscribers cannot complain if they find their papers stopped.

Our terms are $2.50 per annum, when not paid in advance. As we are anxious to close up our old accounts as promptly as possible, WE WILL ACCEPT $2 A YEAR FROM ALL WHO PAY UP PROMPTLY, on receipt of bills. Those who neglect to pay, and force us to the expense of collecting bills by agents or other means, will be required to pay the full $2.50.

In this connection we renew our cordial thanks to those of our patrons who have so promptly paid their subscriptions—also to those who have so generously aided in extending the already large circulation of the "STAR AND SENTINEL." During the last three months we have received quite a number of new subscribers, and can thus readily afford to drop the "dead-heads" without affecting our aggregate circulation.

THE House of Representatives has been discussing all week the new bill to provide for taking the census of 1870. The main struggle has been as to the officers who shall do the work. On the one hand it is urged that the statistics should be gathered by the Assessors and Assistant Assessors already in office, as a matter of economy and as likely to secure more thorough work. On the other hand it is held that there would be reluctance the part of many to give the requisite statistics to the Assessors, because of supposed bearing on taxation, and that more correct data could be secured by means of Census agents specially appointed. Unless the new bill passes by the 1st of January the Census will be taken under the old act.

WE see it stated that the proprietor of the Gettysburg Katalysine Springs has gone into bankruptcy, leaving some $60,000 liabilities in the neighborhood of the great battle-field.—*Carlisle Herald.*

The *Herald* is in error, in announcing the failure of the "proprietor of the Gettysburg Katalysine Springs." Dr. HAMILTON, of New York, who has gone into bankruptcy has nothing to do with the Katalysine Spring. True he was one of the original lessees of the Spring, so far as concerned the right of bottling, but his connection with it ceased over a year ago. His liabilities in this neighborhood grew out of real estate purchases—his creditors here being amply secured by liens on the property sold to him.

IT is proposed to pay Pensioners through the agency of the Post-office Department, by using Postal Money Orders issued directly to the Pensioner, say every two months. This would dispense with the necessity of Pension Agencies and the preparation of semi-annual vouchers. Pensioners would, on these Money Orders, draw the amount due them from the nearest Money Order office. Prominent members of Congress favor the plan, and a bill will probably be reported to that effect during the present session.

GLADSTONE'S bill for the disestablishment of the Irish Church has failed to pacify Ireland. Fenian demonstrations continue, with a growing spirit of insubordination. It is announced that Gladstone, failing to win by pacific legislation, will now resort to repressive measures. Troops will be sent into Ireland and martial law be declared, with a suspension of the *habeas corpus* act.

LATER despatches from Texas confirm the election of Davis as Governor, and the remainder of the Radical Republican State Ticket, by decided majorities. This result is as gratifying as it was unexpected. Texas was thought to be the least "reconstructed of the Rebel States, and the defeat of Davis was generally conceded. Both Mississippi and Texas are safe for the XVth Amendment.

### THE REORGANIZED JUDICIARY.

There are nine Judicial Districts in the United States, in each of which, under the old law, were to be held "two Courts, which shall be called Circuit Courts," and were to consist of a Justice of the Supreme Court of the United States and the District Judge of the District. The business has, of late years become so extensive in these Circuits as to make it impossible for the Judges to get through with it. This induced Congress last winter to pass an Act, the 3d section of which provides that "for each of the nine existing judicial circuits there shall be appointed a Circuit Judge, who shall reside in his circuit, and shall possess the same power and jurisdiction there in as the Justice of the Supreme Court allotted to the circuit. The Circuit Courts in each circuit shall be held by the Justice of the Supreme Court allotted to the circuit, or by the Circuit Judge of the circuit, or by the District Judge of the district sitting alone, or by the Justice of the Supreme Court and Circuit Judge sitting together, in which case the Justice of the Supreme Court shall preside, or, in the absence of either of them, by the other (who shall preside) and the District Judge. And such courts may be held at the same time in the different districts of the same circuit, and cases may be heard and tried by each of the Judges holding any such Court sitting apart, by direction of the Presiding Justice or Judge, who shall designate the business to be done by each."

Whilst the 5th section of the Act requires each of the Justices of the Supreme Court to "attend at least one term of the Circuit Court in each district of his circuit, during every period of two years," their labors will be greatly lightened, and the more speedy transaction of business secured.

The President, who is authorized to make the appointments of the new Circuit Judges, has sent to the Senate for confirmation, the following names:

George F. Shepley, of Maine, for the First Circuit.

Lewis B. Woodruff, of New York, for the Second Circuit.

Wm. McKennan, of Pennsylvania, for the Third Circuit.

George A. Pearce, of Maryland, for the Fourth Circuit.

Wm. B. Woods, of Alabama, for the Fifth Circuit.

George H. Yeaman, of Kentucky, for the Sixth Circuit.

Thos. Drummond, of New York, for the Seventh Circuit.

John F. Dillon, of Iowa, for the Eighth Circuit.

Lorenzo Sawyer, of California, for the Ninth Circuit.

Mr. McKennan, nominated for the Third Circuit, composed of Pennsylvania and New Jersey, is a native of, and now resides in Washington county, Pennsylvania. It will be remembered that he was named in connection with a place on Gen. Grant's Cabinet. He has excellent legal acquirements, and enjoys the reputation of being one of the best lawyers in the Western part of the State. His father, Hon. Thomas M. T. McKennan, represented his District in Congress from 1831 to 1842, and was appointed Secretary of the Interior, by President Taylor, but resigned after holding the office a few weeks.

The salary of the new Judges is $5,000 each per annum.

Objections having been made to the confirmation of George H. Yeaman as Judge of the 6th Circuit, by reason of alleged complicity with the Rebellion, it is said the President will withdraw the nomination.

---

HON. ROBERT C. GRIER, of Pennsylvania, has resigned his position as one the Justices of the Supreme Court of the United States, an office which he has held for nearly a quarter of a century, having been appointed by President Polk. That this announcement will produce a sensation in legal and judicial circles will readily be understood, since it not only opens another vacancy on the Supreme Bench, to be filled by President Grant, but is also likely to affect grave questions of national concern, on which the Court is nearly divided, and on which any successor President Grant is likely to appoint is certain to hold different opinions from Judge Grier The President has succeeded so well in the main in his appointments of the new Circuit Judges, that the country will have a larger faith in the judgment he is called to display in two yet more important places now to fill. Judge Grier was next to the oldest Judge on the Supreme Bench, and had become so firm that frequently he had to be carried to and from the Court. Under an act of Congress, allowing Justices of the Supreme Court over 70 years of age, to retire on continued pay, Judge Grier will during life receive $5,000 per annum.

IN the U. States Senate, on Monday, Mr. Carpenter, from the Committee on the Judiciary, reported a bill to perfect the reconstruction of Georgia, providing for the assembling of the Legislature as originally elected, with no expulsion of members on account of race or color, the exclusion of all persons ineligible under the Fourteenth Amendment, and that the provisions of the act be enforced by the military and naval power.

On the same day Mr. Drake called up his bill prohibiting the Supreme Court from jurisdiction upon acts of Congress, and made an argument upon it. Mr. Drake took the ground that if the Court could pass judgment upon and reverse an act of Congress it was practically the highest power in the land, and that the Constitution never intended but that Congress should be the sole and supreme legislative power.

Mr. Trumbull, while expressing himself fully in accord with Mr. Drake as to denying to the Supreme Court the right to pass on political legislation, thought it would be dangerous to withdraw from that tribunal jurisdiction over *all* legislation.

THE Œcumenical Council at Rome was opened last week with unusually impressive ceremonies, amid the ringing of bells, the firing of cannon, &c. After a session of a few days, the Council adjourned until after the Epiphany, Jan. 6th. Considerable difficulty is apprehended in divided counsels.—The Governments of France and Spain, it is said, have announced that if the Council undertakes to affirm the dogma of Papal Infallibility, they will hold themselves absolved from all obligations to respect its decrees. A telegram from Rome reports that the Pope has issued a decree, providing that in case of his death the Œcumenical Council shall be dissolved, and none but Cardinals vote for his successor. As the sessions of the Council will command much attention, we give on our first page an interesting sketch of its constitution and the prelates who may be expected to figure prominently in its deliberations.

LETTERS from Rome state that the Pope intends to make one or more American prelates Cardinals, and the Archbishops of Baltimore and New York are mentioned as likely to receive the honors.

A BILL for the suppression of polygamy and the correction of other abuses among the Mormons, has been introduced into the U. S. Senate by Mr. Cragin, of New Hampshire. It provides that none but citizens are to be competent to serve as jurors, and the United States, in any case in which it shall be a party, shall have the right of challenging jurors. The courts and the militia are to be placed under the control of the Governor, appointed by the United States. Marriage is to be a civil contract, and Polygamy in every form is forbidden under severe pains and penalties, while those who practise it, or even believe in its rightfulness, are declared incompetent to serve as jurors in criminal cases arising under the act against polygamy passed in 1862. Certain ordinances, relative to water and pasture rights in Utah, are disapproved and annulled, and all acts of the Legislature of Utah Territory, or of the so-called State of Deseret, inconsistent with the provisions of the bill, are declared null and void. The friction between the Mormon system and the tide of civilization now pouring over the plains, by reason of the construction of the Pacific Railroad, is developing an antagonism which must lead to serious difficulty, and the Government must meet the issue sooner or later. Mormonism, under Brigham Young, is essentially a despotism, and its power will have to be broken, possibly by the logic of bayonet and cannon.

On Monday the President sent a message to the House, in response to a resolution, asking what States have ratified the proposed Fifteenth Amendment to the Constitution. He enclosed a letter to him from the Secretary of State, giving the following list of States as having ratified it:

| | |
|---|---|
| Missouri, | Arkansas, |
| Kansas, | Connecticut, |
| North Carolina, | Florida, |
| West Virginia, | Illinois, |
| Massachusetts, | Indiana, |
| Wisconsin, | New York, |
| Maine, | New Hampshire, |
| Louisiana, | Nevada, |
| Michigan, | Vermont, |
| South Carolina, | Virginia. |
| Pennsylvania, | |

In the case of Missouri and Kansas there are some defects in the returns, which can be remedied, if necessary, by further legislative action. To make the Amendment a part of the Constitution the assent of 28 States is necessary. This leaves 7 more to be secured. Legislatures favorable to the Amendment have been elected in Texas, Mississippi, Rhode Island, Alabama, Iowa, Minnesota, Nebraska and Ohio—more than sufficient. Besides these Georgia and Oregon will probably ratify.—There seems, therefore, to be no reasonable doubt of Manhood Suffrage being recognized throughout the Republic in the year 1870.

THE case of Dr. Schoppe, convicted of the murder of Miss Steinecke, has excited unusual attention throughout the country. Prominent medical men and a number of Medical Associations have examined the testimony in the case, and generally agree that the evidence of Miss Steinecke having died of poison was inconclusive and unreliable. Public meetings have also been held in various parts of the country, at which resolutions were adopted asking Gov. Geary to withdraw the death-warrant. In view of the opinions of these medical experts, developed since the trial, sufficient doubt, to say the least, has been thrown around the case to justify the Governor in arresting the execution. Under the circumstances it would be wrong to hang Dr. Schoppe.

The latest phase of the case is the granting of a Writ of Error by the Supreme Court, returnable the first Monday in January. This will of course postpone the execution, which had been fixed for the 22d inst.

GIRLS are in demand "out west." The excess of men in Ohio is 40,000; in Michigan, 40,000; in Kansas, 15,000, in Missouri, 12,000, and in California, 143,000. On the contrary, there are 50,000 more women than men in New England, and nearly the same excess of females in Pennsylvania, New York and New Jersey. Some of the females in the last named States could doubtless have their pick of husbands if they were to emigrate westward.

"NOTIONS," it seems, are not confined to Yankee land. The old world also occasionally produces something in that line, for we see that a novelty, as well as a decided convenience, has been introduced into the postal arrangements in Austria.—Cards of a fixed size are sold at all the post offices for two kreutzers, one side being for the address and the other for the note, which may be written either with ink or with any kind of pencil. It is thrown into the box and delivered without envelopes. The object is to enable persons to send off with the least possible trouble messages of small importance, without recourse to paper, pen, ink and envelopes.

DISEASE AMONG STOCK.—Government officials employed at the various ports cannot regard with too much care Secretary Boutwell's recent instructions concerning the importation of diseased cattle. European advices report the rapid spread of a contagious disease affecting the hoof and mouth of herd cattle and other animals. So far we have been very fortunate in escaping from the diseases which have been so destructive to European stock. With the exercise of proper care at our ports and borders, we shall probably insure deliverance from them in future.

### NEWS OF NEIGHBORING COUNTIES.

CARROLL.—The Westminster *Advocate* states that the boycotters is quite prevalent in the lower part of Carroll county. Several farmers have lost all their fat hogs from the disease. Rev. Jonathan Monroe, for 48 years a minister of the Methodist Episcopal church, died at Westminster, on the 4th inst.

CUMBERLAND.—On Monday afternoon, the 6th inst., Maggie, a little daughter of Henry Glitter, about 5 years old, residing on the Wagner's Gap road, was burned to death in a most horrible manner. The father of the child was out at the stable attending to the stock. The mother went on an errand to her father-in-law's, leaving three children in the room—the deceased, a sister two years younger, and an infant in the cradle. She was gone about fifteen minutes, and on her way back to her home she was told that the house was on fire. She ran in and found the little girl lying on the floor, with all her clothes burned off except a few shreds around the shoulders. A charred stick was lying on the stove hearth, and a chair in which the younger sister had been sitting, was on fire. When the mother picked Maggie up, she asked if her sis ter had set her on fire. The little sufferer replied, as best she could, that she had done it herself. She was burned to a crisp about the body, and lived about an hour after she was discovered, during which time her sufferings were intense.—On the 9th inst., Nathan C. Woods, residing near Newville, while hulling cloverseed with a machine, missed his footing, falling in among the revolving wheels, and so badly injured that death ensued in a few hours.—The large Warehouse of Judge Blair, and the Stables of Messrs. Reedig, Shepley and Hollar, in Shippensburg, were destroyed by fire, last week; supposed to have been set on fire.

FRANKLIN.—Leonard Kauffman, of Quincy, had his shoulder dislocated on Monday last.—The Lutheran congregation of Greencastle has extended a unanimous call to Rev. J. Buhrman, of Waynesboro.—A valuable horse was stolen from the stable of James Shockey, near Waynesboro, on the night of the 4th; the thief and horse were captured at Charlestown, Va.—George Summers, a respectable farmer residing near Waynesboro, was found lying on the road in an insensible condition, on the evening of the 4th, and died the same night. It is supposed he fell or was thrown from his horse, and in the fall received a severe wound in the forehead, fracturing the skull.—The tailor shop of Jacob R. Zearfass, Orrstown, was robbed on the night of the 8th inst., of a large lot of clothing.—Rev. Wesley Howe, of Greenvillage, was found dead in his bed on the morning of the 9th, at the residence of Rev. Mr. Lloyd in Orrstown, whom he was visiting. He complained of being unwell when he retired.—Wm. Hamilton, aged 22 years, was found lying dead at the mouth of a lime-kiln on the Strasburg road, 4 miles from Chambersburg, his body being badly burned and one of his feet burned off. He had been in Chambersburg the preceding evening drinking with some of his companions, and on his way home h d laid down at the kiln, and falling asleep rolled down to the mouth.

WASHINGTON.—At a recent meeting of the Board of Trustees of the Antietam Cemetery, the following gentlemen were re elected as officers to serve during the ensuing year: G. L. Cranmer, President; General E. Shriver, Vice President; Thos. A. Boelli, Secretary and Treasurer; Dr. A. A. Biggs, Superintendent.

YORK.—Henry Wirt has been chosen President of the Hanover Savings Institution, in place of Jacob Wirt, deceased.—The office at McCall's Ferry, is re established, Michael Donohoe appointed Postmaster.—Elizabeth Listman, wife of Christian Listman, of Fairview township, drowned herself in Yellow Breeches creek.—A son of Daniel Hamm, North Codorus township, on the line of the Hanover Branch Railroad, was killed instantly by a vicious horse kicking him in the head, at his father's stable, while engaged loosening the animal preparatory to taking him to water. He was found lying dead in the stable.—W. C. Houser, of New Oxford, has purchased the Franklin Hotel, in Hanover, for $9,000.—Judge Young, of Hanover, bought the master armor's house and lot, and the lot adjoining, in Harpers Ferry, Va., at the recent Government sale, for $6,100 and $5,150.

### GENERAL NEWS.

MR. Seward arrived in Mexico City on the 15th ult., and met with a grand reception.

FOUR men were suffocated by coal gas on board a schooner at St. Johns, N. B., on Thursday night.

Miss Mattie Irwin and Herman Cochran were drowned on Saturday in a pond in a graveyard, while skating, at Chester, Pennsylvania.

DAMAGE to the extent of $100,000 was done to buildings connected with the St. Nicholas Hotel, New York, by fire, on Friday night.

IT is stated that thousands of chickens and turkeys have recently died in Chester and Delaware counties, Pa., from what is known as the chicken cholera.

A PARTY of one hundred armed men took two negroes out of the Richmond Ky., jail on Sunday night, hung one and whipped the other and sent him back to jail.

THE office of the Northern Central Railroad Company at Elmira was robbed on Monday night of checks and drafts to the value of $18,000 and about $500 in greenbacks.

THE Spanish gunboats have been released, instructions having been forwarded to District Attorney Pierrepont from Washington not to proceed any further in the matter.

Two men entered the office of the Treasurer of Tama county, Illinois, on Thursday evening, stabbed that official so that he will probably die, and made off with $8000 in money.

THE editor of the Washington *Reporter*, having indulged in certain strictures upon the price and quality of meat sold in that borough, the Butchers have formed a ring on him, and he can't get a pound for love nor money. He confines himself to vegetable diet exclusively.

FATHER HYACINTHE sailed for Europe from New York on Saturday in the steamer Pereire. He was accompanied to the vessel by several members of the French Benevolent Society and several American friends. He stated he would return to this country again and make an extended tour of it.

A STAGE robber, repently arrested in California, has made a confession, revealing the fact that there is an organized band, with code of laws, gripe, signs and pass words, operating from Oregon to Arizona, and into Nevada. The band was originally organized at Portland, Oregon, and has for months pursued a career of robbery and murder.

THE Bishops attendant at the Œcumenical Council have brought a great number of presents to the Pope, and the official statement is elicted that in the last ten years his Holiness has received one hundred millions of francs from the Peter's pence contributions—about twenty million dollars of our money.

NEAR Stockton, California, on the night of December 9th, Frank Medina, keeper of a grocery store, and four other men, were murdered by robbers. In the same neighborhood, a few nights previously, a store was plundered and burned, and the bodies of two men who occupied it were subsequently found in the river adjacent. The perpetrators of these crimes are unknown.

THE Paris *Droit* reports a horrible accident which happened on the 19th ult., in a soap and candle factory at Tullemont, near Montreuil-sous-Bois. A chemist, M. Dallican, had been charged by M. Dubois, the director of the works, to examine the acids used in the manufacture of soaps. He went to the factory, and was received by the foreman, M. Molesky, who showed him the different apparatus. When Molesky had mounted a narrow platform of brickwork, above a cauldron in which fat was boiling, and waited to take out some of the mass by means of a long handled dipper, he slipped, and was precipitated into the cauldron. M. Dallican tried to rescue him, but by scalding his hands and arms; he succeeded in seizing Molesky, and was lifting him upon the platform, when the clothes of the unfortunate man, saturated with grease, slipped from his hands. The foreman fell back into the cauldron. Workmen, who were attracted by his cries, pulled him out and carried him to his room, where they tried to undress him; but his burns were so deep that his flesh was perfectly boiled and came off with his clother, leaving the bones bare. Molesky very soon died, under the most severe pain.

IT is not common for doomed men to "faint away" just before they are hanged, but this is what William C. Bell did on the scaffold at Alton, Ill., on the 12th ult. In most cases, a man thus sinking into insensibility before his time would have been fanned and hearts horned into life again, and then have been put to death with all the terror and dignity of the law. But the hangman at Alton appears to have been of a mild and considerate nature; for he hastened to finish off Bell before he could return to consciousness, so that in seven minutes he was dead, and in twenty-five minutes he was in his coffin. Of course this hasty way of doing things deprived the company of a neat, theological speech from a dying sinner; but, upon the whole, the deprivation was, perhaps, no great loss.

COMMISSIONER WELL'S REPORT.—Special Commissioner Well's forthcoming report will show that the importations for July, August, September, October and November of this year are some $12,000,000 more than last year, and that the exports for the same months this year are $31,000,000 more in round numbers, than last year. The export of bullion and specie for the same period is $4,000,000 less than last year. These statistics show, of course, a much healthier condition of our foreign trade for the last months of the present year than for 1868.

A HEAVY CLAIM.—A claim which dwarfs the Alabama claims and all the other demands ever made on either a Government, a corporation or an individual, will be presented to the Mexican Commission. It is for no less a sum than $322,907,519.33, and is made by the Tehuantepec Ship Canal Company and Mexican and Pacific Railroad Company. Among its items which make up the above sum is that of $650,000 disbursed to assist Juarez against Maximilian.

A SPLENDID PRIZE FOR THE LADIES!—The finest, most pleasing, and costly engraving ever published in America, to be presented as a premium to each subscriber to Demorest's Monthly, a Magazine of practical utility in the household, a mirror of the fashions, and a literary conservator of surprising interest and artistic excellence, acknowledged to be the Model Parlor Magazine of America.

The engraving 28 by 35 inches, is from the original painting, entitled, "The Pic-Nic on the 4th of July."

The painting took a whole year, and is considered the finest of the entire list of numerous popular productions by Lilie M. Spencer. The engraving was the labor of four years, by three eminent artists—John Rogers, John Halpin, and Samuel Holly; the last named having been induced to come from Europe to America expressly to finish it. The engravers have ably seconded the successful labors of the painter. None but artists can fully appreciate the skill and labor lavished on this engraving. The general effect is very fine and impressive, and the delicate finish to the heads will bear the most minute inspection. The union of line and stipple is executed with unusual ability, and their skillful combination has greatly contributed to the success of the engravers in this unsurpassed proof of their artistical genius.

The work on the engraving alone cost over seven thousand dollars, besides the cost of the copyright, and is acknowledged by competent judges the most elaborately finished large work of art ever engraved in America.

Fine copies of this magnificent Picture, on heavy plate paper, worth $10 each, are to be given as a Premium to each Subscriber to Demorest's Monthly Magazine. Yearly Subscriptions only Three Dollars, and Ten Cents (which is to be sent with the subscription,) for the postage on the engraving, (which will be mailed securely done up on a roller.)

This is certainly the largest, most liable and splendid premium ever offered to single subscribers by any publisher, and affords an easy and economical way for any one to secure an elegant work of art, a Parlor Picture that is only next to a piano in the way of ornamentation, and a perpetual reminder of a day which ought to be cherished and held in remembrance by every true American.

The reception of this magnificent picture will take every one by surprise, and we do not venture anything in saying that $10 will not procure another that combines so much of interest and beauty.

Specimens of the Magazine, with circulars, giving full particulars, will be sent to any given address, post free, on receipt of 15 cents. Address, Demorest's Monthly, 838 Broadway, N. Y. It

THE ONLY RELIABLE CURE FOR DYSPEPSIA IN THE KNOWN WORLD.

Dr. Wishart's Great American Dyspepsia Pills and Pine Tree Tar Cordial are unequalled by any remedy for dyspepsia in its most aggravated form, and in every stage of the disease.

They penetrate the secret abode of this terrible disease, and exterminate it root and branch, forever.

They alleviate severe spasm and silent suffering than tongue can tell.

They are noted for curing the most desperate and obstinate cases, when every known remedy has failed to relief.

No form of dyspepsia or indigestion can resist their penetrating power.

DR. W SHART'S

PINE TREE TAR CORDIAL.

It is the vital principle of the Pine Tree obtained by a peculiar process in the distillation of the tar, by which its highest medical properties are revealed. It strengthens the digestive organs and restores the appetite. It strengthens and invigorates the debilitated system. It purifies and enriches the blood, and expels from the system the corruption which accumulates in the lungs. It dissolves the mucus or phlegm which clogs the air passages of the lungs. Its healing principle acts upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving pain, and subduing inflammation. It is the result of years of study and experiment, and it is offered to the afflicted with positive assurance of its power to cure the following diseases, if the patient is not too low with Consumption, or has not too long delayed as a resort to the means of cure:—

*Consumption of the Lungs, Bronchitis, Sore Throat and Croup, Bronchitis, Liver Complaint, Blind and Bleeding Piles, Asthma, Whooping Cough, Dyspepsia, &c.*

A medical expert, holding honorable collegiate diplomas, devotes entire time to the examination of patients at the office parlors. Associated with him are three assistants, graduates of acknowledged eminence, whose services are given to patients free of charge.

This opportunity is offered by no other institution in the country.

Letters from any part of the country, asking advice, will be promptly and gratuitously responded to. Where convenient, remittances should take the shape of

ACCIDENT.—On the 3d inst., as a son of Mr. Marks Bream, of Tyrone township, was attempting to mount the saddle horse from the wagon tongue, he fell, and in falling dislocated his right shoulder and fractured a bone in the arm. Dr. Eckenrode, of Heidlersburg, gave the case attention, and the boy is doing well. —*Compiler.*

ACCIDENT.—On Saturday last, as Senator Duncan with two of his sons, was returning home from Cashtown, Adams county, his horse took fright on the South Mountain and, becoming unmanageable, ran off, upsetting the buggy and throwing all three out. Mr. Duncan was considerably hurt and has been confined to the house on that account since then. One of the boys was also injured to some extent. —*Valley Spirit.*

DONATION.—We understand that on Friday last a number of the ladies of the Lutheran church at Fairfield got up a pleasant surprise for their Pastor, Rev. E. S. Johnson, who resides in Emmitsburg. Five wagon loads of eatables, flour, corn, potatoes, turkeys, apple-butter, &c., were driven to the parsonage and handed to the inmates. The affair had been quietly arranged, and in its denouement took the good Pastor by surprise.

O. U. A. M.—On Wednesday evening last a Lodge of "United American Mechanics" was organized in this place by R. W. Sadler, W. D. G. C. of this district, to be known as "Howe Lodge No. 213." The following officers were installed:—Wm. Chritzman, C.; J. W. Cress, V. C.; A. M. Hunter, R. S.; W. D. Holtzwouth, A. R. S.; Isaac Johns, F. S.; J. J. Myers, F.; W. P. McCartney, I.; Daniel Lashell, E.; Wm. Aughinbaugh, I. P.; George Weikert, O. P.; R. D. Armor, Ex-C.

The order of United American Mechanics, we believe, is a purely American organization, and is growing in popularity. Its objects, as set forth in the Constitution, are:

1st. To assist each other in obtaining employment.

2d. To encourage each other in business.

3d. To establish a sick and funeral fund.

4th. To establish a fund for the relief of widows and orphans of deceased members.

5th. To aid members who, through Providence, may have become incapacitated from following their usual avocation in obtaining situations suitable to their afflictions.

"Howe Lodge" starts with 30 members, and will meet every Wednesday night in the Hall on the N. East corner of the diamond.

"POPULAR SCIENCE."—At a recent session of the "National Educational Convention," at Trenton, N. Jersey, a special meeting was held for the reading of an Essay on "Popular Science," by MRS. LINCOLN PHELPS, of Baltimore, for a copy of which we are indebted to the author. One of the evils growing out of the rapid advances in scientific discoveries and the elaboration of theories to meet new developments—leading the *savans* far out into the remoter and difficult fields of scentific investigation—are an indisposition to popularize science, and making text-books for beginners a resume of scientific laws, learned researches, and speculative theories, instead of what they ought to be a captivating compilation of the A. B. C's and general principles of science. Indeed we know of some men in these latter days who contemptuously ignore the experience of life-long practical educators and would discard from our Schools and Academies all graded text-books in Geography, History, Natural Philosophy, Chemistry, &c.,—leaving such studies to be taken up only when the pupil has attained sufficient mental capacity to master the dry details of pure science. MRS. PHELPS' Essay is a plea for the popularization of Science, especially for beginners. She would bring Science down to the comprehension of the pupil just beginning to tread the path of scientific researches, and make that pathway attractive instead of repulsive. Herself an educator of large experience, and the author of a number of valuable text-books, MRS. PHELPS' views will command attention, and hence we regard the Essay before us as exceedingly timely production.

In illustration of her theme MRS. PHELPS takes up the subject of Botany—a department in which she has long held an enviable distinction as teacher and author—and makes a strong plea for the Linnæan, as over and against what is called the Natural system. While the Natural system is claimed by its friends to be the more accurate and scientific in its classifications, MRS. PHELPS regards it utterly unfit to be put into the hands of ladies and pupils commencing the study of Botany—as tending to confuse the mind, and induce an aversion for, instead of a love for a most attractive and healthful study. In support of her views she quotes largely from some of the most distinguished writers on Botany in America and Europe—Prof. Lindley, the English Botanist, (who has taken the lead in establishing the "Natural system" of classification,) is quoted as admitting that this classification "is not susceptible of such an analysis as a young student is capable of following," while other adherents of the same system call that of LINNÆUS "an invaluable key" and "a necessary ladder."

We may say, in this connection, that MRS. PHELPS is the author of a series of most excellent text-books, prepared on the plan indicated in this Essay, viz:—"Botany for Beginners," "Philosophy for Beginners," "Chemistry for Beginners," "Natural Philosophy," "Manual of Chemistry," and "Familiar Lectures on Botany," —the latter three being prepared for advanced classes. Twenty years ago the writer used them as text-books, and to-day we know of none better. J. B. Lippincott & Co., Philadelphia, have recently brought out new editions, revised and enlarged by the distinguished author, to bring them squarely abreast with the present advance in scientific investigation.—The board of education of Maryland have adopted the series to be used in the common and academic schools of that State. We commend them to the attention of our own educators.

## THE TEACHERS' INSTITUTE.

The sessions of the Teachers' Institute closed on Friday night, the large attendance and general interest continuing unabated to the close. It was beyond question the most successful Institute thus far held in the county, and argues well for the growing appreciation by Directors and Teachers of the value of well conducted Institutes. Although much may be said on such occasions, by enthusiasts who make a specialty of modes of teaching or subject matter, of questionable utility, much more is said and done from which invaluable lessons may be drawn and applied in the every-day administration of the School system. The Directors and Teachers present manifested their sense of the importance of these Institutes by adopting a resolution affirming that Teachers' salaries should be regulated, among other things, by their "zeal and punctuality in attending Teachers' Institutes." We are glad to learn that a larger proportion of Directors this year granted Teachers the privilege of attending, without diminution of pay. We hope the day is not distant when all our Directors will not only cheerfully grant this privilege, but *require* Teachers to attend. If the School system is to be brought to anything like the highest possible standard of efficiency, it must be through the agency of live Directors and live Teachers. Drones should have no place in our Educational system.

It is but due to Mr. WERT, the County Superintendent, to say that much of the success of the Institute is due to his untiring energy and the attractive features thrown around it in the presence of prominent Educators, whose services had been secured at a heavy expense. We presume enough was realized during the sessions of the Institute to meet these expenses.

Our report last week detailed the doings of the Institute down to Wednesday afternoon, and we resume our report at that point.

WEDNESDAY NIGHT, DEC. 8.

The Court house, as usual, was crowded. Prof. Raub, of Lock Haven, delivered an interesting lecture on "Life and Living," after which very creditable essays were read by Mi-s Martha Warren, of Gettysburg, on "The Sunny Side of Teacher's Life;" Miss Ollie Heinard, of Butler, on the "Education of Woman;" and Miss Carrie McMillan, of Gettysburg, on "The Teacher's Mission."—Mr George Grammar, of Franklin township, during the afternoon, had read an essay on "The Shady Side of the Teacher's Life."

THURSDAY, DEC. 9.

Mr. Sheely presented the Teacher's Library with 32 volums of valuable books, for which the thanks of the Institute were voted. Mr. Wert conducted an interesting Class drill in History, the class being taken from the Gettysburg High School.

It was agreed to hold the next annual meeting of the Institute in Gettysburg at such time as the Executive Committee may determine.

Prof. Kidd gave another Lecture in Elocution, and was followed by Deputy State Superintendent Houck, who answered a number of interrogatories by Directors and Teachers, explaining the School Law, the duties of Directors, Teachers, &c.

At the afternoon session, an interesting discussion took place on the subject of salaries, participated in by Deputy Superintendent Houck, Drs. Hendrix and McClure, J. F. McCreary, E. W. Cook, H. N. Minnigh, Rev. Bonebrake, D. S. Brenneman, C. J. Sefton, Miss Warren, T. E. Cook, Mr. Wintrode, and others. The result was the unanimous adoption of a resolution that Teacher's salaries should be graded by the amount of knowledge possessed, the ability to impart that knowledge, and zeal and punctuality in attending Teachers' Institutes.

Mr. Chamberlin and Miss ROSS presented Chambers' Encyclopedia, 2 vols., to the Library, and received the thanks of the Institute.

Col. McFarland, Superintendent of the Soldiers' Orphans Schools, addressed the Institute on School buildings and Furniture, and the duties of live Teachers and Directors.

At the close of the afternoon session, the contest in Orthography, conducted by Mr. WERT, took place. The contest was open to all, and 26 Teachers took their place in class. The premium, Webster's Unabridged Dictionary, was awarded to Miss Rachel Wright, she having spelled correctly every word propounded during the exercise.

At night Prof. Kidd gave an Elocutionary Entertainment to a crowded house.

FRIDAY MORNING, DEC. 10.

Prof. Raub lectured on Orthography and Grammar, Prof. Kidd on Elocution, and Prof. Brooks, of the Millersville Normal School, on Mathematics.

In the afternoon Prof. Brooks delivered another interesting address, followed by Prof. Kidd with a closing lecture on Elocution.

At night, Prof. Brooks delivered an address on the "Spiritual Element in Education;" after which Prof. Kidd, by request, recited "Scott and the Veteran." This being the last session of the Institute, the audience were dismissed, and the members of the Institute spent an hour or more in pleasant social intercourse, short speeches, answering questions found in the "Query Box," adjourning with the long metre Doxology, "Praise God from all blessings flow."

The Standing Committees, during the sessions of the Institute, were as follows:

On Organization, Messrs. Hanson Harner, G. M. Baker and Miss Mary J. McCreary.

On Resolutions, Mr. J. C. Hildebrand, Miss M. Warren and Miss Ollie J. Heinard.

On Social Intercourse, Capt. Minnigh, Miss Ida Brashey, Miss Julia Hollinger, Miss Mollie Monfort, Miss Sallie Frey, A. H. Parr, and H. J. Eckenrode.

On Finance, J. C. Hildebrand, Capt. McCreary, Miss Rachel Wright, Miss Alice Powers and Miss Jennie Hamilton.

On Library, Peter Kready, W. Howard Dicks, Rev. Houghtelin, Miss Otelia Sherfy and Miss Maria Thompson.

On Queery Box, George Grammar, Miss Jennie Bitner, Miss Minnie Minnigh, Miss Ollie J. Chronister and Miss H. V. Lane.

On Singing, Mr. J. Heltzel, Miss Mary Sherfy, Miss Mary Kendlehart, Miss Lizzie Essick and Miss Kate Getz.

RESOLUTIONS ADOPTED.

The following Resolutions, reported by the Committee, were unanimously adopted:

1. That time has tested and proven the utility of our County Institute, and that we consider it indispensable and the securing the efficient working of our system of paying it our attention.

2. That our thanks are due to the citizens of Gettysburg for the manner in which they have entertained the lady Teachers, and also for their encouragement by their attendance at the Institute.

3. That our thanks are due to the Commissioners for the use of the Court House, and we regard it as an evidence of their interest in the Common School cause.

4. The thanks of the Institute are due Prof. Ferrier for his entertaining Lecture on "The Loneliness of Hamlet," and also for his instructive discourse on Words.

5. That we tender our sincere thanks to the Lecturers who have been with us during the week and think it highly complimentary to the good judgment of our worthy County Superintendent that he secured the aid of such efficient co-operators with himself in rendering our Institute not only instructive but entertaining.

6. That the thanks of the association are due to the Proprietors of the different Hotels for their kindness in making a deduction in fare of male Teachers.

7. That we extend our thanks to the managers of the Gettysburg and Hanover Rail Road for the deduction of fare of Teachers attending Institute.

8. That the Hon. Henry Houck, Deputy State Superintendent, has deservedly won the thanks of Teachers and Directors present, and we only regret that every Director in the County was not present to receive his practical hints, so clearly and yet so kindly spoken.

9. That the thanks of the members be extended to the officers of the Convention, who have done their duty worthily and faithfully.

10. That we regard the unusually large attention of both Teachers and Directors at the present Institute as an evidence of increasing interest in the cause of education, and gladly hail it as the dawn of a better day for Common Schools in Adams County.

11. That the Institute tender heart-felt thanks to Mr. Sheely, ex-Superintendent, for the efficient aid he has rendered in various ways, and that we appreciate the interest he has manifested in the Institute by his presence at every session, and also beg leave to assure him that his services in the past are not forgotten, and that we think the best manner of expressing the gratitude we feel will be for each Teacher to improve the "munificent donation" he has made in the way of Books, by making the contents of each their own.

12. That Mr. Wert, our present County Superintendent has shown, by the happy method he has followed in conducting this his first Institute, that he is admirably adapted for the responsible office he has been called upon to fill, and that the cause of Education is no secondary matter in his estimation; and all unite in the hearty wish that he may long live and win laurels in the good work that lies so near his heart. We forgive him for robbing our Institute of a member, hoping that she will prove to him a help meet in deed and in truth.

13. That a vote of thanks be tendered to Prof. Gundrum, the Choir, String Band, and also to the class from the Public Schools, of Gettysburg, who have enlivened the various sessions of the Institute by their inspiring strains.

14. That last, but not least, we are highly indebted to Prof. Brooks for rendering the closing exercises of the last day and evening so eminently a feast of reason and a flow of soul.

ARRESTED.—We find the annexed item in the local department of the Baltimore *American* of the 8th inst. We suppose the reference is to GEORGE ARNOLD, Esq., Cashier of the 1st Nat. Bank of Gettysburg. Nothing is known of Harding in these parts:

Messrs. Smith, Pierson & West, independent detectives, yesterday morning arrested at a restaurant near Holliday Street Theatre a man called Col. James Harding, who, it is alleged, is an escaped prisoner from Pittsfield, Massachusetts. Several days since he went to the engraving establishment of Messrs. A. Boen & Co., of this city, and represented that he had been commissioned by Mr. James Arnold, Cashier of the Bank of Gettysburg, Pa., to procure a check book got up in fine style, at a cost of $100. The fact was communicated to the detective firm, who received information that the letter purporting to be from Mr. Arnold was a forgery. It is alleged that he is the person who defrauded the principals of several female colleges and academies in this city two or three years ago by passing upon them drafts purporting to be signed by Bruce, Hearst & Co., Savannah, Ga. Since then he has been in other States. He was committed to await the demand of the authorities of Massachusetts.

ACCIDENT.—Our old friend and neighbor, Dr. F. E. Vanderslool, met with a sad accident sometime ago, while on a visit to his sons at Annville and Philadelphia.—Leaving Annville in the morning for Philadelphia with his wife, sitting on the seat of the Express wagon, the seat tilted, throwing him out over the curbstone into the gutter, dislocating his left shoulder and bruising his right hand and side. He is now in Philadelphia with his son, in an almost helpless condition.

SUDDEN DEATH.—On Saturday evening last, Mrs. Elizabeth Rubsamen, (formerly widow of Baltzer Newport, deceased,) died very suddenly at the residence of her son, Baltzer Newport, in this place. Six years ago she had an attack of paralysis, and another about four years ago, but on Saturday evening was in her usual health. While sitting at the supper table, conversing with the family in cheerful spirits, and in the act of giving some food to a grand child, she suddenly fell from her chair and died before medical assistance could be called in. She was aged 64 years, 6 months and 6 days. Her remains were taken to Ever-Green Cemetery, Revs. Breidenbaugh and Jamieson officiating.

MEETING AT TWO TAVERNS.—James H. C. Wilson, of Iowa, will lecture at the Two Taverns this (Friday) evening, on the "Life, Character and Public Services of Abraham Lincoln." It will be remembered that Mr. Wilson addressed the citizens of that vicinity pending the last Presidential election, and we hope he will be greeted with a large audience.

A HOLIDAY WANT.—Your Wife wants it—your Daughter wants it—a No. 1 Sewing Machine—as a Christmas Gift. It will be just the thing, and a blessing throughout the year; because, when the ladies of a household are happy, will not all be so? And what can bring about such a result more perfectly than something that will relieve and make light what is otherwise a matter of great labor and money—the sewing for a family? The Howe Machine is confidently recommended as being the most satisfactory in the market.

PRINTER'S INK—A GOOD ARTICLE.—The ink with which this issue of the "Republican" is printed is from the Gray's Ferry Printing Ink Works of C. E. ROBINSON. It is clear, flows freely, and is of a good color. Our brother printers can judge of its quality by comparing it with ink from other manufactories.—"Delaware County Republican."

TO PRINTERS.—We have been using for several weeks a very fine quality of ink, from the Gray's Ferry manufactory of C. E. ROBINSON, which our pressmen say is the best for cylinder press news-work that they have used for a long time. It is a clear black, and free from all kinds of sediment. Mr. Robinson is a practical ink manufacturer, liberal and courteous in all business transactions, and as he has recently had the misfortune to be burned out, we are the more free to recommend his ink and himself to the patronage of all printers who desire a good article at very cheap rates.—*Delaware Gazette.* It

KOONS.—At the residence of D. A. Buehler, in this place, on Wednesday evening last, of pulmonary disease, Rev. HENRY S. KOONS, in the 41st year of his age. The deceased was a native of York, Penn'a. At an early age he made a profession of religion, and consecrated himself to the Gospel Ministry, graduating at Pennsylvania College in 1849, and completing his theological studies in the Theological Seminary. In 1852 he was ordained as a Minister of the Gospel, and for a year or more served a Lutheran congregation in Bedford county. Public speaking and the exposure incident to ministerial life affecting his voice and constitution, he resigned his charge, and took charge of an Academy in Indiana, Pa. Subsequently he taught in the Preparatory Department of Pennsylvania College, as Principal—afterwards was called to Pinegrove, Pa., and for the last nine years had charge of a Select School in Hanover. Although in failing health for some years, he continued his educational work until last Thursday, when he was compelled to close his school and came to Gettysburg. His disease made rapid progress, and on Wednesday evening he went to his rest calmly and peacefully. A sincere, devoted Christian, conscientious in the discharge of every duty, he daily exemplified, in a consistent walk and conversation, the sincerity of his Christian profession, and the beauty of an unwavering faith in his Redeemer.

☞The funeral will take place Friday afternoon, at 1 o'clock.

## FARMER'S BOYS.

MESSRS. EDITORS:—Sometime since my attention was drawn to a poetical article in the "Agricultural column" of your paper, entitled "Don't Leave The Farm." The article, I believe, was directly intended for the boys. Certainly very good advice, and the "boys" should give it their serious attention. Hundreds of boys are leaving the farm every year for the already over crowded towns and cities, exposed to the many evils incident to city life. Why is this? The great reason, I believe, is that no interest whatever is given them in any of the affairs of the farm.—"Stop now," I hear a grumbler say, "give my boys any interest in the affairs of my farm? Allow them to reap half the profits, and squander the money uselessly?" No. That is not the idea. How then shall we give them an interest?

That can be easily done. Give them a little plot of ground near the house, to call their own, and work to suit themselves. Buy them a few vines of choice grapes, (which can now be bought for little or nothing,) and give them into their care to train, and prune as they see fit, or as experience may teach. Add a few choice pear, peach and apple trees, with currant, raspberry, blackberry, gooseberry, strawberry and other small fruits. Go with them sometimes, and watch them in their labors, cheering them with kind words, when they become discouraged. "Yes," says one, "but I need my boys elsewhere, on the farm. I cannot afford to have them spend their time working a small garden, which might be worked with the rest of the field in a great deal less time." To this we say a great waste of time is unnecessary. An hour in the evening or morning is sufficient. And the time thus spent by them,—will be amply repaid in increased fondness for and devotion to farm work, to say nothing of the rich fruit with which they will load your table. Or, if this does not suit, try something else. Give your your son a colt, to feed, curry, lead, ride, and train as his own. Or give him a pig, a sheep, a calf, or a row of potatoes, corn, or some other grain. "But," says one, "how will I find time to let my boys do all this? My farm is large; help is scarce, and I have not the means to hire the help I need.—Consequently I need my boys in the field early and late."

To meet this objection we would say: Better hire an extra hand or two *now*, than after a while see your son's leaving the farm discouraged, disheartened, going forth to seek their fortunes in the world alone.

How many of our farmers do this? While I write, I think of but one that gives his son any interest whatever, in the management of the farm. All the machinery, consisting of reapers, grain separater, drill, hay tedder, cider mill, &c., all are under the care of the son. He is yet a young man, still in his teens. I have never yet heard that young man speak of leaving the farm. Why? Because he has an interest there, and works with a good will and earnest purpose. A great many of our young men of these days, and especially farmers, have an intense desire or longing for books and study. On the farm this privilege is often denied them. Some few fathers send their sons to school, but the exceptions are rare. I know of a young man who asked his father to send him to school, and who was coldly put off with the answer, that he had "education enough to be a farmer." On another occasion the reply was, "No; I don't want my boys going to school, to make lazy fellows out of them." Oh, that farmers would wake up to their own true interests and those of their children.—Every department of labor should be made attractive, and I know of no better way to make home and the farm attractive to boys, than by giving them to understand that they have a direct interest in its proper care and management—not an interest contingent on death or the far future—but immediate, bearing fruit in increased self-respect, cheerfulness of disposition, and earnest purpose. Let it be tried. G.

HOW PREMIUMS ARE AWARDED.—An Agricultural Society in one of the eastern counties of Pennsylvania offered a premium for the best cultivated field of corn. A committee was appointed and in due time entered upon the duties of its office. It so happened that there were but three contestants for the prize and their farms located not very distant from each other. By arrangement the members of the committee left their respective homes on the day appointed and met at the farm of A. After viewing his cornfield, and partaking of a *lunch*, they proceeded to the farm of B. Here, after viewing the cornfield they partook of a well gotten up *dinner*, which they no doubt enjoyed with a keen relish. Then then proceeded to the farm of C. who unluckily was not at home, nor any provision made for entertaining the committee. They however viewed his cornfield and returned to the hospitable mansion of B. where they partook of *supper* and after due deliberation awarded the premium to B. *for the best cultivated field of corn.* Who will deny that there is a strong sympathy between the *brain* and the *stomach?*

FEEDING hogs on unground and uncooked corn has been frequently proved to be a far less effectual manner of fattening them than that of giving them some grain ground and cooked; yet many persons prefer the former to the latter mode of feeding. Pulping roots, such as turnips, mangels, beets, carrots, parsnips, potatoes, etc., is now found to be a very profitable way of preparing them for fattening stock, and very effectual machines have been invented for this purpose. In the Channel islands large quantities of parsnips are grown for feeding milch cows, and are kept for a long time by being cooked and then poured into casks, nearly all moisture being expelled in the process.

AN ambitious youth, who has been brought up with a sad misapprehension of facts, thus pours his soul into verse:

If I was a lokle editor,
Wouldn't I have a time!
I wouldn't print a cussed word
For lessen a $ a line.

I'd get my grub and licker free,
& lickers to the shown,
I would'nt pay for buggy hier,
& wouldn't I wuss good close?

THE Californian "Moderation Society" pledges its members to drink only wine, beer and cider, except when they are discouraged, and then whisky is allowed.

GAS tar, mixed with white wash, applied to the interior of a hen house, at the rate of one gill to a pailful, it is said, will disperse the lice.

THE WORLD,

DODGES' OHIO AND BUCKEYE

Reapers and Mowers.

A careful examination of these machines will convince any one of their superior merits over all others, in strength, durability, ease of draft, and reliability for work, on all kinds of ground, and in every variety of grass and grain. Confident of this we invite those in want of a good machine to examine for themselves before purchasing elsewhere.

These machines can be sold as Naked Mowers—MOWERS as Hand Rake, Self-Rake, or Dropper—Two different sizes: No. 1 Machine, with two cutter Bars and three Knives, cutting five and a half feet for grain and four feet eight inches in grass; No. 2, cutting four feet six inches.

We have that confidence in these machines that we are willing to take those wanting machines that them with any other they may wish, and keep the one that proves the most satisfactien. DODGES' AITMAN SELF-RAKE has given such general satisfaction that we consider it the best Self-Rake out, and is attached to no other machine except the Dodge Machine, the Ohio and Buckeye patent.

We now have on hand of those wanting machines we would refer them to a few of those to whom we have sold the last season, viz:

Also, WIRE-TOOTH HAY RAKES, including the celebrated Brandt Rake, and Self-discharging Rakes. Also, PLOUGHS, FANNING MILLS, AND FARM IMPLEMENTS GENERALLY.

Persons wishing to examine machines will find them at the warehouse of JOSEPH WIBLE & SONS, Gettysburg, Pa., or at the residence of the subscriber, 2 miles from Gettysburg, on the Harrisburg road. Persons wanting Circulars will address the subscriber, Gettysburg, Pa.

STILL AHEAD!

HOFFHEINS'

REAPER & MOWER,

*One of the Greatest Machines of the Age,*

IS superior to any other Machine now in use, an will say to any that will be introduced, having been thoroughly tried and given general satisfaction. I would now inform all those who intend purchasing Machines to call and examine for themselves. This Machine is noted particularly to excel all other machines in strength, durability, ease of draft, and reliability of work, in all kinds of grass and grain. It cuts lodged grain admirably, which is a great item in Machines of this kind. It can be used as a hand rake as well as a self-raker. It cuts 5 feet 6 inches in length of cut, and through in grass; has a steel cutter bar, with wrought iron guards; it can be used as a Single Mower as well as a Combined Machine.

A full trial of the Machine can be had.

Also, SHIREMAN'S SELF-DISCHARGING HORSE RAKE, and the great and well-known BRANT RAKE, the best rakes ever introduced. We would also call your attention to the IRON DOUBLE SHOVEL PLOUGH, wrought mould-board, very light and strong, steel shovels, easily adjusted to run shallow or deep, and is neatly and tastefully made

ALSO, THE KEMBLE AND EXCELSIOR FANNING MILLS, the old sawborough Fan improved, for many years a great favorite among the farmers of Pennsylvania. It is large and strong, has two cockle screens, and warranted to work perfectly.

Also all kinds of FARMING IMPLEMENTS always on hand.

Any person wishing to examine these machines can call han at the Battle-field Hotel or at my residence, 2 miles from Gettysburg, between the Taneytown road and the Baltimore pike.

RING'S VEGETABLE

AMBROSIA.

THIS FAVORITE HAIR RESTORER has been before the public long enough to have been thoroughly tested and its increasing sale and popularity are the best evidences of its superior merit.

AS A RESTORER OF GRAY HAIR

to its original color it has no equal.

FOR CURING

HUMORS OF THE SCALP

and preventing itching it is wonderfully successful.

For Preventing the Hair

from falling off it is unfailing.

FOR RESTORING

HAIR TO BALD HEADS

it succeeds beyond Competition, although not always successful. Where the glands or follicles are not destroyed new Hairs is sure to grow after using it properly.

*AS A DRESSING*

nothing surpasses it. It imparts to dry, faded and wiry Hair that beautiful glossy appearance so much admired.

Containing no oil or grease it does not soil the finest linen.

It is compounded upon Scientific principles of the purest ingredients and is entirely harmless.

Being perfumed with the most fragrant Extracts its odor is delightful.

*TESTIMONIALS*

almost with at number can be given if necessary but the

AMBROSIA

is too well known to require it. Use it once and you will never be without it.
